

Terms of Use

1. General

These terms and conditions ("Terms") govern your use of the Site (defined below) and the Services (defined below). These Terms also incorporate any guidelines, announcements, additional terms, policies, or disclaimers that we may issue or make available from time to time.

These Terms constitute a binding and enforceable legal contract between Supersize Inc. ("Supersize," "we," or "us") and you, the end user ("you" or "User"), regarding the services ("Services") in relation to the Slimecoin platform ("Interface").

2. Agreement to Terms

You must read these Terms carefully before accessing the Interface or using the Services. By accessing, using, or clicking on the Interface via our website (including all related subdomains) or its mobile applications ("Site"), or by accessing, using, or attempting to use the Services, you acknowledge that you have read, understood, and agree to be bound by these Terms and to comply with all requirements set forth herein.

If you do not agree to all of these Terms or cannot comply with the requirements herein, you must not access or use the Site or the Services. Additionally, certain features of the Services may be subject to specific supplemental terms and conditions, which will apply in conjunction with these Terms.

In the event of any conflict between these Terms and any such additional terms, these Terms shall prevail unless expressly stated otherwise.

3. Amendments to Terms

We may change, update, add to, or remove provisions of these Terms at our sole discretion from time to time for legal and compliance purposes. Any such modifications will become effective upon their publication on the Interface or upon notification to Users, unless otherwise specified.

Continued use of the Interface after any modifications constitutes acceptance of the revised Terms. If you do not agree with the amended Terms, you must immediately discontinue access to and use of the Interface and the Services.

4. Eligibility

By accessing the Interface or affirmatively accepting these Terms (for example, via a click-to-agree mechanism), you represent and warrant that:

- a) as an individual, legal entity, or organization, you possess the full legal capacity and authority to enter into and be bound by these Terms;
- b) you are at least 18 years of age, or the applicable legal age to enter into enforceable contracts under applicable law;
- c) your use of the Interface does not violate, and fully complies with, all applicable laws, including but not limited to those governing anti-money laundering, anti-corruption, and counter-terrorism financing;

- d) you are not a citizen, resident, or domiciliary of any country where accessing or using the Interface is prohibited ("Restricted Country"), and you are not utilizing the Interface for or on behalf of any person or entity from such a country;
- e) you are not, and have never been, listed on any trade embargo, economic sanctions, or similar restrictions, such as the U.S. Office of Foreign Assets Control's Specially Designated Nationals list, the U.S. Department of Commerce's denied persons or entity list, or any equivalent lists enforced by the United Nations, European Union, or United Kingdom;
- f) if entering these Terms on behalf of a legal entity as its employee or agent, you hold all requisite rights and authority to legally bind that entity;
- g) you are exclusively accountable for your Interface usage and, where relevant, for all actions conducted via the Interface; and
- h) you commit to acting in good faith toward other Users' rights and will take all reasonable steps to uphold the purpose and objectives of these Terms.

5. Interface

- a) **Interface** The Interface is a gaming platform where Users can play and compete in skill-based games. Users must connect their own wallet to pay entry fees directly to Solana-based smart contracts. Fees pool into a smart contract-managed pot. Based on gameplay performance and calculation after the competition, smart contracts automatically distribute on-chain rewards, prizes, or other benefits ("Rewards") in USDC or other supported digital assets to winners' wallets directly after the protocol deducts transaction fees.
- b) **Decentralized Protocol** You acknowledge and agree that Supersize operates solely as an online platform facilitator and is not acting as a broker-dealer, custodian, investment advisor, or casino. Supersize does not oversee, manage, or participate in the transactions and gameplay of Users. Users interact directly with smart contracts for deposits, gameplay, and payouts. The Interface is decentralized and non-custodial in nature. All transactions are on-chain. Supersize does not hold, manage, or control any Users' funds, and it does not store, transmit, or receive any funds on Users' behalf. When engaging with the smart contracts, you maintain full control of your cryptoassets through your personal digital wallet at all times. You are solely responsible for securing your private keys, and Supersize has no access to them.

In line with this decentralized design, there are no intermediaries involved in processing, matching, or managing orders, user accounts, or gameplay outcomes. Supersize serves no role as an intermediary, agent, or fiduciary for any User. Smart contracts handle all core functions transparently and immutably on-chain, eliminating the need for off-chain approvals, escrow services, or manual interventions. While Supersize generally does not perform identity verification for Users or validate funds beyond on-chain data, we reserve the right to request identity verification, source-of-funds documentation, or other personal information if required by applicable law, regulation, or a valid request from law enforcement.

You bear all risks arising from your use of the Interface, including those related to cryptoassets, blockchain networks, and decentralized protocols in general. Users bear full accountability for securing their private keys, wallet configurations, and compliance with blockchain network rules (for example, gas fees and transaction finality), as well as any associated risks, including smart contract vulnerabilities, network congestion, or irreversible transactions. The protocol's underlying software is open-source and operates on public blockchain networks. As such, you acknowledge and agree that (i) Supersize bears no responsibility for the functionality, security, or uptime of these networks; (ii) no assurances are provided regarding performance or availability; and (iii) the networks may undergo modifications or disruptions that could impact the protocol.

Users engage directly and autonomously with the protocol's smart contracts deployed on the Solana blockchain, enabling seamless peer-to-peer gameplay and reward distributions without any centralized oversight. Supersize, the Interface, and the Site function solely as informational and access tools, providing a user-friendly front end to facilitate these on-chain interactions - they do not retain, access, or exercise control over Users' private keys, funds, or cryptoassets at any point. All transactions, including entry fees, gameplay entries, competition resolutions, and prize claims, are executed exclusively through Users' self-managed digital wallets, ensuring Users maintain sole custody and responsibility for their assets. By participating, you confirm that you understand and accept these non-custodial dynamics, which prioritize security and user sovereignty while adhering to the principles of permissionless innovation.

- c) **Fair Play and Prohibited Tools** You are prohibited from engaging in any unfair or manipulative practices, including but not limited to collusion with other Users, coordinated entries intended to influence contest outcomes, the use of automated bots or scripts, exploitation of software bugs, and any other behavior designed to gain an unfair advantage.
- d) **Jurisdictional Restrictions** Access to or use of the Interface may be restricted or illegal in certain jurisdictions. You are solely responsible for ensuring that your use of the Interface complies with all applicable laws in your jurisdiction.

6. Transactions and Wallets

- a) **Transaction Method** All transactions on the Interface - including contest entries, in-game purchases, and reward distributions - must be conducted exclusively through blockchain-based wallets compatible with the Interface. The Interface does not support fiat payment.
- b) **Supported Networks and Assets** Supersize currently supports transactions conducted on Solana and accepts only the digital assets or tokens explicitly listed within the Interface. You must ensure that you are using a compatible wallet and transferring supported assets; sending unsupported tokens or using non-compatible networks may result in permanent loss of funds, for which Supersize assumes no responsibility.
- c) **Transaction Fees and Limits** Each blockchain transaction may incur network ("gas") fees determined by the relevant blockchain network, which are not controlled by Supersize. Any applicable limits, processing times, and minimum entry requirements will be displayed within the Interface prior to confirming your transaction.
- d) **Contest Entries and Rewards** Where required, Users may be required to pay entry fees in supported digital assets to participate in specific skill-based contests. Contest results, rankings, and any Rewards distributions are determined by applicable Contest Rules (defined below) as published within the Interface. Rewards will be distributed to an eligible User's connected wallet automatically or within a reasonable period after the contest results are finalized. Supersize makes no representation or warranty regarding the tax implications of receiving Rewards, and Users are solely responsible for any taxes, duties, or levies applicable under their jurisdiction.
- e) **No Wagering or Gambling** Supersize contests are skill-based competitions and do not constitute gambling, wagering, or betting. Contest outcomes depend on Users' ability to successfully execute gameplay and achieve high scores within the Interface.

7. Contest Participation

- a) **Eligibility to Participate** To participate in any skill-based contest offered through the Interface, you must hold a wallet, comply with all applicable eligibility requirements, and maintain sufficient digital assets in your connected wallet to satisfy any applicable entry fees. Supersize reserves the right to restrict participation from certain jurisdictions or to specific categories of contests at its sole discretion.

- b) **Contest Rules and Entry** Each contest, tournament, or event made available through the Interface will be governed by its own specific rules ("Contest Rules"), including details on entry requirements, scoring mechanisms, prize allocations, and result determinations. By entering a contest, you agree to be bound by the applicable Contest Rules, in addition to these Terms. In the event of any inconsistency between these Terms and the Contest Rules, the Contest Rules shall prevail with respect to that contest.
- c) **Formation and Submission of Entries** Users may be required to complete gameplay objectives or submit scores using the Interface before the contest entry deadline. Once submitted, entries are considered final and cannot be modified or withdrawn after the contest has commenced, except as expressly permitted by the Interface.
- d) **Determination of Results** Contest outcomes are determined based on objective, verifiable data (for example, gameplay scores) as defined in the Contest Rules. The protocol may utilize on-chain mechanics, publicly available data sources, or ranking algorithms to determine the outcome of the competition and promote transparency and fairness.
- e) **Contest Results** All contest results and rankings are final upon publication on the Interface. Supersize does not have any control or influence over contest outcomes or Rewards allocation, which are determined solely by smart contracts and the protocol.

8. Responsible Gaming

- a) Users are responsible for monitoring their own participation in contests and for using the Interface responsibly.
- b) Supersize may implement measures such as deposit limits, participation limits, or self-exclusion tools to promote responsible gaming and safe engagement with the Interface.
- c) Users who experience difficulty controlling their participation or use of the Interface are encouraged to seek assistance from responsible gaming organizations.

9. Prohibited Activities and User Conduct

- a) **General Conduct Requirements** You agree to use the Interface and Services solely for lawful purposes and in accordance with these Terms. You must at all times act in good faith and in a manner that upholds the integrity of the Interface.
- b) **Prohibited Activities** Without limiting the generality of the foregoing, you agree that you will not, whether directly or indirectly:
 - i. Violate Laws or Regulations - use the Interface in any way that breaches any applicable laws, regulations, or orders of any governmental or regulatory authority, including but not limited to those relating to anti-money laundering (AML), counter-terrorist financing (CTF), anti-corruption, and securities trading;
 - ii. Misrepresentation and Fraud - create, use, or attempt to use multiple or false identities, impersonate another person, or engage in deceptive or fraudulent behavior, including manipulating contest results or reward outcomes;
 - iii. Exploitation or Collusion - collude with, or otherwise assist, any other User or third party to gain an unfair advantage in any contest, including sharing confidential contest data, coordinating entries, or manipulating gameplay outcomes;
 - iv. Use of Automated Tools - deploy bots, scripts, crawlers, scrapers, or any automated device or algorithm to interact with or extract data from the Interface;
 - v. Manipulation or Abuse - interfere with, disrupt, or compromise the normal functioning, security, or integrity of the Interface, including exploiting bugs, vulnerabilities, or system errors;

- vi.** Unauthorized Access - attempt to gain unauthorized access to the Interface, other Users' wallets, data, or systems, or perform any activity that could harm the security or performance of the Interface;
- vii.** Intellectual Property Infringement - use or distribute any content from the Interface (including data, text, graphics, logos, or code) without authorization or in a way that infringes any intellectual property or proprietary rights of Supersize or others;
- viii.** Data Harvesting or Mining - collect or attempt to collect information about other Users, including wallet addresses or personal data, without consent;
- ix.** Malicious Content - upload, transmit, or distribute any content or material that contains viruses, trojan horses, worms, logic bombs, or any other harmful code;
- x.** Market Manipulation or Price Gaming - use the Interface or related contests to manipulate the value, market perception, or performance of any digital asset or token;
- xi.** Circumvention of Restrictions - attempt to circumvent or bypass geographical, technical, or access restrictions for Restricted Countries, including the use of VPNs or proxy services to access the Interface from Restricted Countries;
- xii.** Offensive or Harmful Behavior - engage in harassment, abusive conduct, hate speech, or any activity that causes harm or distress to other Users or Supersize; and
- xiii.** Other Improper Use - use the Interface for any purpose inconsistent with the intended design, functionality, or purpose of the Interface, or in any way that could bring Supersize or other Users into disrepute.

10. Referral Program

Any referral program offered through the Interface is provided at Supersize's discretion. You agree not to engage in any fraudulent, deceptive, or abusive activities, including but not limited to creating fake accounts, using bots or scripts, self-referrals, incentivizing referrals through unauthorized promotions, or circumventing any rule of the referral program.

Referral rewards, incentives, benefits, or credits (collectively, "Referral Rewards") are not guaranteed and may be granted, withheld, adjusted, reduced, or revoked by Supersize at any time, for any reason, and without prior notice. Referral Rewards do not constitute wages, salaries, employment income, investment returns, profit-sharing, securities, or any form of guaranteed compensation. Participation in the referral program does not create, imply, or establish any employment, agency, partnership, joint venture, fiduciary, or other legal relationship between you and Supersize (or any of its affiliates, officers, directors, employees, or agents).

You acknowledge that Referral Rewards are provided solely as a promotional courtesy. Supersize reserves the absolute right to (a) modify, suspend, or terminate the referral program, or any part of it, including changes to eligibility, reward structures, or terms; and (b) impose caps, limits, or conditions on referrals, without liability for any resulting loss of expected rewards or benefits. Any such changes will be effective immediately upon posting on the Interface.

11. Smart Contracts, Oracles, and Automated Execution

You acknowledge and agree that the Interface may rely on smart contracts, blockchain protocols, and third-party or decentralized data sources, including oracles and external data feeds, to determine contest outcomes, scoring, rewards, or other automated results. These technologies are inherently experimental, volatile, and subject to risks beyond Supersize's control. You acknowledge that such technologies may be subject to errors, delays, inaccuracies, manipulation, or unintended behavior.

To the fullest extent permitted by law, Supersize shall not be responsible or liable for any incorrect, incomplete, delayed, erroneous, unavailable, interrupted, malfunctioning, or unexpected outcomes caused by smart contract execution, oracle failures, data feed inaccuracies, network congestion, or other blockchain-related issues. Where Supersize determines, in its sole discretion, that a contest or result has been materially affected by such issues, Supersize may cancel, suspend, void, or adjust the affected contest or outcomes.

You further acknowledge that any compensation, rewards, or settlements arising from a contest are limited to those executed automatically by the applicable smart contracts, and Supersize has no obligation to provide additional compensation, refunds, or remedies beyond such on-chain execution.

12. Multi-Account Use and Sybil Resistance

Each User is permitted to participate in the Interface solely as a single individual or entity. Supersize reserves the right to identify, investigate, and restrict abusive behavior involving multiple wallets, accounts, or identities, including conduct commonly referred to as "multi-accounting" or "Sybil attacks."

If Supersize reasonably suspects that multiple wallets or accounts are controlled by, associated with, or acting in coordination with the same User for abusive, manipulative, or unfair purposes, Supersize may, at its discretion, treat such wallets or accounts as a single entity, suspend their access to the Interface, and void any associated contest entries or rewards.
